High quality audio with no interference or radio fading	×	✓
Make calls to parties other than Air Traffic Services calls	×	✓
Easy dialing to Air Traffic Services	×	✓
Simple Installation	×	✓

- Designed for operators of smaller commercial, military, or private aircraft seeking alternative solutions to legacy HF Radio
- Controlled by the user-friendly and integrated Flightcell Control Head
- Does not have to be integrated with any other aircraft systems
- Make and receive calls from air traffic services regardless of flight path

Iridium Satellite Network

Flightcell SVS provides uninterrupted voice communications between aircraft and air traffic services over the Iridium Satellite Network.

Flightcell SVS is a non-certified product. Please check with your relevant aviation authorities to determine if a non-TSO SATVOICE system is permitted in your jurisdiction.
